**Workshop on
Migration in Nepal: Long Distance Migration
and Environmental Change in Nepal
July 21-23, 2017, Kathmandu.**

Organized by:

Nepal German Academic Association (NEGAAS)

Supported by:

DAAD

Deutscher Akademischer Austausch Dienst
German Academic Exchange Service

INTRODUCTION

Nepal German Academic Association (NEGAAS), a non-profit organization, established in 1986 is going to organize three days workshop on Migration in Nepal: Long Distance Migration and Environmental Change in Nepal in collaboration with Prof. Dr. Beatrice Knerr from University of Kassel, Germany. The workshop will deal with the issues interconnecting the problem of migration with environment.

TARGET GROUP

Alumni members of DAAD, NEGAAS and other returnees, university students, high school teachers, social activists and governmental employees. Limited to 50 participants.

OBJECTIVES

The prime objective of the proposed workshop is to bring together the competent young researchers and experts as well as concerned entrepreneurs in the area of migration-environmental change nexus to:

- present a comprehensive overview over the knowledge of area i.e. migration with particular emphasis of its correlation with environmental changes,
- provide a platform for discussion within the country itself among researchers, experts and social activists,
- formulate a joint memorandum as an input for policy making and reforms and
- publish a report or proceedings volume in order to disseminate the collected knowledge to a broader public.

The workshop will be delivered through lectures followed by interactive discussions among the participants and speakers. Some poster presentation by the participants has been planned.

REGISTRATION

Registration should be sent to organizer via e-mail (sdn@info.com.np) by July 17, 2017. The selected participants will be notified by e-mail. Registration Fees: Rs. 3000. Free for DAAD alumni members.

VENUE

Yellow Pagoda Hotel, Kantipath, Kathmandu, Nepal
